# OUR CONSULTING EXPERTISE

Studyin-AUS puts lot of emphasis on fast and efficient services. With sufficient experience in education sector and international linkages, we offer accurate and valuable advice to prospective students who yearn to go overseas for higher education.

We believe in quality education and encourage our students to select education programs and universities, taking into consideration the overall study cost, university QS ranking, program duration and distance from home. However, we discourage students to opt for shorter education programs that are non-accredited in nature.

Our staff has extensive network of academic linkages with premium universities and research institutions around the world. With the 'hand in hand' approach, every student has a personal mentor who will assist and advise them with issues pertaining to academic, administrative domains that may arise in the visa application process.
